- 1 × Travel Pouch
- 1 × User Guide
Thank you for choosing the Boltune BT-BH001 Wireless Stereo Earphones. If you have any questions or issues, please contact our customer support team by email at support@boltune.net

How to Use

1. Charging
1) Connect the charging port with any USB charging adapter or active computer USB port.
2) Charging will start automatically with LED indicator turning red.
3) The earphones are fully charged when LED indicator turns blue.
Note: Make sure the battery is fully charged before putting the earphones away for storage. Charge the earphones at least once every 3 months when not using for a long time.

2. Pairing
1) Make sure the earphones and your Bluetooth® device are next to each other (within 3 feet).
2) The first time you use the earphones, press and hold the Multifunction Button until the LED indicator flashes red and blue alternately. Now the earphones are in pairing mode.
3) Activate Bluetooth® function on your phone and search for the nearby Bluetooth® connection: Find “Boltune BT-BH001” in the search results. Tap on the name to connect. Once connected, the Blue LED will flash.
Note:
• The Bluetooth® earphones can remember previous paired devices.
• If the earphones cannot pair with your Bluetooth device. Press and hold the Multifunction Button (when the earphones are off) for 10 seconds until the LED indicator flashes purple twice to clear the pairing history. Then restart the earphones to pair again.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference,
and (2) this device must accept any interference received, including interference that may cause undesired operation.

**WEEE Compliance**
Correct Disposal of This Product (Waste Electrical & Electronic Equipment)  
(Applicable in countries with separate collection systems)  
This marking on the product, accessories or literature indicates that the product and its electronic accessories should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office, for details
of where and how they can take these items for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.
